

The George Tiller Memorial Abortion Fund

“Make no mistake, this battle is about self-determination by women of the direction and course of their lives and their family’s lives. Abortion is about women’s hopes and dreams. Abortion is a matter of survival for women.”

In response to several requests from supporters and friends of Dr. George Tiller, as well as the staff of his clinic, **the National Network of Abortion Funds has established the George Tiller Memorial Abortion Fund.**

This Fund will provide assistance to the same women Dr. Tiller served – women seeking second-trimester abortions, women facing significant obstacles to abortion care, and low-income women who will now need to travel further than ever to reach an abortion provider. Notably, this Fund will be available to patients of the late Dr. Tiller’s clinic, Women’s Health Care Services in Wichita, at such time when the clinic is able to regroup and reopen.

Dr. Tiller was a compassionate physician who provided critical abortion services to poor women across the country. **Low-income women are significantly more likely to seek abortions during their second trimesters, due in large part to the amount of time they spend raising money for their abortions.**

In 2003, Dr. Tiller noted that he was committed to supporting care for poor women and girls by the Network because, **“without financial assistance, the reality of fertility control for these poor women will remain an unfulfilled promise.** The Network makes the world a better place to live, one woman at a time, by allowing her to decide the most fundamental decision of her life – when to be a mother and when to be a parent.”

Dr. Tiller was not only a great friend to the Network and the women we serve—he was a true champion for the rights of poor women. We hope to honor his legacy by continuing to provide the most vulnerable women with the abortion care they seek.

Let us work together—to fulfill Dr. Tiller’s mission and to make the world a better place.

The National Network of Abortion Funds is an affiliation of more than 100 grassroots abortion Funds in 41 states, the District of Columbia, Canada, Mexico, and overseas. Last year, our abortion Funds raised and disbursed more than \$3 million to help over 21,000 women pay for abortions. For more information about the National Network of Abortion Funds and to find a Fund in your area, visit www.nnaf.org.
